ALBA

BIKELON

Bikelon is a competitive arcade game, played by pedalling to inflate balloons until they are popped within the playing time.

Balloon on the turning wheel is blown slightly before game starts. Then, the player pumps the balloon up as quick as possible until the balloon pops.

When the balloon is stretched enough, needles on the bottom ensures popping the balloon for a fair game for all players.

If a player manages to pop the balloon before the time runs out, another balloon queues in the line.

Time and score displays are available.

Suitable for performance indexed ticket-redemption system
